THE NEW CORONA VIRUS

Middle East Respiratory Syndrome- Coronavirus (MERS-COV)

MANY PEOPLE WONDER ABOUT THE NEW CORONA VIRUS,

What is it?

Corona is a large group of viruses, which can infect both humans and animals with cold related diseases. The intensity of the infection ranges from common cold to acute respiratory syndrome.

However, the new strain of coronavirus, which causes MERS, is a novel virus to humans. So far, the information related to the disease, its signs, modes of transmission and even the sources of infection is very limited.

Ministry of Health, in cooperation with WHO and international experts, are working on finding out more about this virus.

IS THERE A TREATMENT FOR THE NEW CORONA VIRUS?

There is no treatment until now. Supportive medical care is provided to help relieve the acuteness of the symptoms and control complications.

IS THERE A VACCINE FOR THE NEW CORONA VIRUS?

So far, there is no vaccine.

WHAT ARE THE SIGNS AND SYMPTOMS OF THE NEW CORONA VIRUS INFECTION?
